

Heliocentrix

With all the upper body and strength conditioning that Xscape provides, kids will appreciate a place to climb and just hang out. The Heliocentrix destination provides so many paths, resting points, and routes of travel that it beckons to be played on!

Triton

Three times the fun, the Triton destination invites children to climb on, through, and around its multi-dimensional design. The repeating triangles create a puzzle-like inspiration that children never tire of.

AstroRail

A completely new kind of climber that can be joined to a destination like the Triton or Heliocentrix or used in place of a climbing wall. Kids love the design!
