Mr. W. Durksen, Principal Mrs. L. Lawrance, Vice-Principal

June 3, 2003.

To Whom It May Concern:

I have had the good fortune to work with Mark Suttle and his company, Game Time. Our school was looking for a supplier to plan, develop and build a new playground for our PAC. After looking at numerous company catalogues and talking to various schools, we had 3 companies make presentations to our committee. After seeing the presentations and talking with Mark we found it an easy decision to go with Game Time. What a great decision that was!

Mark came to the school, listened to our ideas, checked the site, offered suggestions and then after a number of information meetings Mark presented us with the finished product. We were very excited about the plan but now we had a great deal of work to do to prepare for installation. Mark was great! He took as much time as was needed, checked on our progress and was always available to answer our questions.

I found Mark to be very knowledgeable about plan concepts, organized, extremely helpful, available for whatever we needed and very patient with us as volunteers. If we had to do it all over again I would chose to work with Mark again.

The finished product is wonderful. The entire community utilizes our playground throughout the week nights and evenings - it is a big hit! We had one problem with one of the pieces of equipment and Mark sent his men over to fix it.

I am very pleased with Mark and his company and would recommend him to any school that is interested in having a playground installed. If you have any questions about this matter, do not hesitate to call me.
